## **DETAILED ACTION**

### **EXAMINER'S AMENDMENT**

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. H. Warren Burnam, Jr. on August 16<sup>th</sup>, 2005.

2. The following changes to the drawings have been approved by the examiner and agreed upon by applicant:

Prior art labels have been added to figures 8 and 9.

In order to avoid abandonment of the application, applicant must make these above agreed upon drawing changes.

### ***Allowable Subject Matter***

3. Claims 1-5 are allowable over the prior art.

4. The following is an examiner's statement of reasons for allowance:

With respect to claims 1 & 3, US 6,452, 231 B1 to Fukata et al disclose a semiconductive device comprising pixel electrode (22), gate lines (12) as a signal line, data lines (14) as a scanning line. US 6,750,476 B2 to Katayama discloses a plurality of pixel electrodes (9a) surrounded by data lines (6a) as a signal line and scanning lines (3a). However, both Fukata et al and Katayama do not disclose nor suggest the relation of the pixel electrode and scanning/signal lines to be such that  $X1 > Y1$ , where X1 is a

gap between the pixel electrode and the signal line, and Y1 is a gap between the pixel electrode and the scanning line. As a result, independent claims 1 & 3 and dependent claims 2 & 4-5 are allowable over the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
